

Email From a Reader of Great Trainers Make It Happen!

“Dear Mr. Olson,

I just finished reading your book titled Great Trainers Make It Happen! I don't consider myself a very creative trainer when developing new course materials for my company, however, your book gave me so many good ideas on how to make our sessions learner-based. I am excited to begin restructuring our 100% lecture-based food safety course into a day of activities that will enhance their learning and get them eager to practice their new skills on the job.

This course has been around for over a decade, and let me tell you, it shows! People dread coming. But this time, I'm going to wow them using the techniques I read about in your book. Thank you for giving me hope in making food safety an enjoyable class to attend”.
